From the Amsterdam Gazette, dated May 25.

Rome, May 5.

THE Pope has caus'd a Pardon to be publish'd for all Apostate Monks, allowing them to enter into other Convents, if they are not willing to return to those from which they withdrew themselves. In the Consistory held on Sunday last, the Pope put M. Piazza into Possession of the Office of Secretary of the Memorials. Cardinal Priuli is preparing to go and take Possession of the Archbishoprick of Bergamo to which he was lately promoted. Cardinal Francesco Nerli, who died on Easter Day past, was a Florentine and a Creature of Pope Clement X. He was born the 13th of July 1636, and died in the 72d Year of his Age, and in the 35th of his Cardinal ship, being one in the Promotion made on the 12th of June 1673, while he was Nuncio at the Court of France. His Body was carried on Easter Monday to the Church of St. Susanna, in the Baths of Diocletian, where it was plac'd in State in the accustom'd Manner; and the Chanters of the Chappel perform'd the Service in the Presence of the Cardinals. In the Evening it was carried to the Church of San Mateo in Merulana, of which he once had the Title, and where he chose to be buried. His Heart was interr'd in the Church of St. Peter. By his Death a 7th Place in the Sacred College is become vacant, as are also the Title of St. Laurence in Lucina, the Dignity of Arch-Priest of the Cathedral of St. Peter, the Super-Intendancy of the building of that Church, the Protection of the Order of Monks of St. Basil, and Session in divers Congregations. He bequeath'd several Legacies, and gave the rest of his Estate to the Hospital of the Lunaticks. The Young Count of Zinzendorf died here the 11th of April, and was buried in the Church del Anima belonging to the German Nation. Several Congregations have been held on Occasion of an Edict publish'd at Milan and Naples, by which King Charles III forbids under rigorous Penalties, the paying Money arising from Ecclesiastical Revenues to any Persons residing at Rome or absent from the Kingdom of Naples, Cardinals themselves not excepted.

Leipsich, May 16. Letters from Lithuania and Poland are still silent, as to the News publish'd here of an Action between the Swedes and the Muscovites, in which the former were said to have lost above 6000 Men. In the mean Time Letters from Vienna advise, that the Resident of *Muscovy* had communicated that News to the Imperial Court; And the Czar's Minister at the Court of Denmark has given out there some Account of it, and on that Occasion made an Entertainment for several Persons of Quality. Letters from Upper-Poland advise, that 'twas suspected the Plague had got into the Town of Kalisch, and that thereupon the Troops of the Army of the Crown quarter'd in it had left it, and canton'd themselves in the Country adjacent to Posnania. At the same time other Advices say 'tis not the Plague, but a Malignant Fever that rages in Kalisch: They add, that the Plague had ceas'd for two Months in Gracow; but that the dry and frosty Weather had caus'd a Scarcity of Provisions there. On Saturday last King Augustus our Elector gave a Magnificent Treat to the Duke regent of Wirtemberg and the Prince of Hohenzollern, as also to divers other Persons of Quality, to the Number in all of 60. The 14th at Night those 2 Generals went from hence, with the Prince of Furstemberg, to take the Diversion of Hunting, and afterwards took the Road to return to Swabia. 'Tis not known whether the Duke of Wirtemberg has negociated any Affair at this Court; if he has 'tis kept very close.

True Spectacles and Reading-Glasses made to the greatest Perfection, by the use of which young Persons may preserve their Sight to the greatest Age, and which from the Criftial Clearness of the Glass and Truth of the Work supply the want of Natural strength, preserve and to assist the weakest Eyes so much as to render the Person capable of doing the finest of Work, and Reading the smallest Print. It is to be observ'd that a weak Sight suffers more in one year without then it will in 4 with the use of these Spectacles, they being ground on true Brass Tools, according to the approv'd Method of the Royal Society.
